

**Yuri Slovokhotov** is Doctor of Science (Chemistry), head researcher in Trapeznikov Institute of Control Sciences (ICS RAS) and professor of Moscow State University (MSU). He has published more than 160 scientific papers and three books on structural studies of condensed phases, a modern fast-growing field of physical chemistry.

**His research interests** include applications of physics to interdisciplinary studies of economics and society. He had published a first Russian review on sociophysics and participated in organizing two Russian sociophysics conferences in MSU (2015) and ICS RAS (2018). Since 2013, he coordinates the Moscow seminar on interdisciplinary physics.
